INDUSTRIAS QUÍMICAS TAMAR, S.L. © 2018.
www.quimicastamar.es

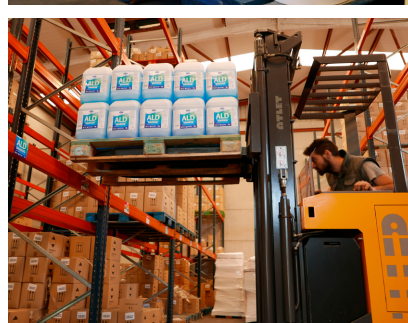

Industrias Químicas Tamar

Industrias Químicas Tamar is a company located just 25 km from Valencia - Spain in the neighboring town of Estivella.

With an area of over 5000 m² Químicas Tamar is one of the few plants that has the capacity to prepare and manufacture biocides nationally and the Ministry of Health considers this extremely important, since we are capable of processing more than **2.000 tons of biocides per year.**

During more than **20 years** the company has led the way on concepts such as commitment to our customers and quality, these basic foundations have allowed the company to continue growing even through the tough times of the recent crisis.

Recently the company forged an agreement with the Technological Institute to establish a series of quality controlled blind tests, in which randomly selected clients, are given samples of our products, which in turn are checked for quality and chemical analysis. This enables Químicas Tamar to establish its own external audit verifying and correcting the production process.

Currently the company has 3 production lines:

Liquids Distributed as follows:

- **Line 5 L - 1 L.** Capacity of 8.000 L / per day.
- **Line 10 L - 20 L.** Capacity 9.000 L / per day.
- **IBCs 1,000 L.** Capacities 16.000 L / per day.

Solids Composed of:

- **Compaction line Tablets:** Composed of mixers, storage silos and compactors with a production of approximately 135.000 tablets / per day.
- **Grain production line:** Composed of mixers and automatic packaging systems with a capacity close to 13.000 kg / per day.

Fire Composed of:

- **Tablets** which currently has a capacity of almost 400 boxes/ hr tablets ideal for the fireplace and barbecues, this production is of strictly organic origin and it was mentioned by the Generalitat Valenciana as an example of sustainable forest, as all organic waste such as cardboards and wood pallets which are to be destroyed are used for the manufacture of this product.
- **Fluid power and cleaners:** fireplace sprays: capacity of 800 sprays per day.

All legal permits, approvals and inspections follow a strict and rigorous examination both by technical personnel of the plant and the Ministry itself, ensuring at all times the fulfilment of European Chemical Agency (ECHA) and other government departments such as the Ministry of National Toxicology .

CHLORINES AND DESINFECTANTS

Chlorine Shock Granulate

Quick action, ideal for making the first water treatment. Great for damaged or muddy waters. The Chlorine shock is the ideal way to shock treat your pool, especially before spring opening.

Package: 5 · 25 Kg

EMPLOYMENT

Adjust the pH of the pool water to between 7.2 and 8.0
Maintenance Treatment: Add 3-5 g / m³ of water every day
Shock Treatment: Add 30-50 g / m³ of water.

PACKAGE	REF NR	U/BOX	U/PALET
5 Kg	1205010050	4	112
25 Kg	1105010250	1	18

Chlorine Granulate

Granulated slow-dissolving chlorine. Special treatment of maintenance and disinfection of the water in the pool. Ideal for daily dosing of your swimming pool which kills bacteria and other potentially harmful organisms

Package: 5 · 30 Kg

EMPLOYMENT

Adjust the pH of the pool water to between 7.2 and 8.0
Maintenance Treatment: Add 3g / m³ of water every day.
Shock Treatment: Add 5 g / m³ of water every day.

PACKAGE	REF NR	U/BOX	U/PALET
5 Kg	1205050050	4	112
30 Kg	1105050300	1	18

Chlorine 5 Actions Tablets

Multifunction tablets 200g Includes disinfectant, clarifying, algaecide, antilimescale and pH regulator. Ideal for full maintenance of the pool water.

Package: 5 · 25 Kg

EMPLOYMENT

Adjust the pH of the pool water to between 7.2 and 8.0
Maintenance Treatment: 1 tablet 200g / 25 m³ of water.
Shock Treatment: 1 tablet 200g / 15 m³ of water.
Maintain the chlorine level between 0.5 to 2.0 ppm.

PACKAGE	REF NR	U/BOX	U/PALET
5 Kg	1205100050	4	112
25 Kg	1105100250	1	18

Chlorine Tablets

200 g of slow dissolving tablets.
Ideal for the disinfection and maintenance of the pool.

Package: 5 · 25 Kg

 Tablets: 200 g

EMPLOYMENT

Adjust the pH of the pool water to between 7.2 and 8.0
Maintenance Treatment: 1 tablet 200 g / 20 m³
Maintain the chlorine level between 0.5 to 2.0 ppm.

PACKAGE	REF NR	U/BOX	U/PALET
5 Kg	1205060050	4	112
25 Kg	1105060250	1	18

Chlorine 6 Actions Tablets

Multifunction tablets 200 g
Includes disinfectant, fungicide, clearer, algacide, regulator pH and antilime scale.
Ideal for the full maintenance of the pool water.

Package: 5 · 25 Kg

 Tablets: 200 g

EMPLOYMENT

Adjust the pH of the pool water to between 7.2 and 8.0
Maintenance Treatment: 1 tablet 200 g / 25 m³ of water.
Maintain the chlorine level between 0.5 to 2.0 ppm.

PACKAGE	REF NR	U/BOX	U/PALET
5 Kg	1205104050	4	112
25 Kg	1105104250	1	18

Bromin Spas Tablets

A powerful disinfectant, eliminates bacteria and harmful organisms. Does not produce smells.
Ideal for the maintenance of the spas and pools.

Package: 5 · 25 Kg

 Tablets: 20 g

EMPLOYMENT

Adjust the pH of the pool water to between 7.2 and 8.0
Maintenance Treatment: 1 tablet 20 g / 5 m³ of water.

PACKAGE	REF NR	U/BOX	U/PALET
5 Kg	1110130050	4	112
25 Kg	1110130250	1	18

ALGICIDES

Algicide Long Duration Brightener Effect

Fast acting liquid and long lasting, this product is able to kill the formation and development of algae in the pool for many months. Do not use in polyester pools.

Package: 5 · 20 L

Liquid

EMPLOYMENT

Adjust the pH of the pool water to between 7.2 and 8.0

Initial Treatment: 2 L / 100 m³

Maintenance Treatment: 1 L / 100 m³ once a week.

Maintain the chlorine level between 0.5 to 2.0 ppm.

PACKAGE	REF NR	U/BOX	U/PALET
5 L	1220160050	4	128
20 L	1120160200	1	36

Algicide 3 Actions

3 actions in a single product. Prevents the formation and development of algae, allows a greater clarity of the swimming pool water and helps regulate pH. Do not use in polyester pools.

Package: 5 · 20 L

Liquid

EMPLOYMENT

Adjust the pH of the pool water to between 7.2 and 8.0

Initial Treatment: 2 L / 100 m³.

Maintenance Treatment: 0.5 L / 100 m³ once a week.

Maintain the chlorine level between 0.5 to 2.0 ppm.

PACKAGE	REF NR	U/BOX	U/PALET
5 L	1220180050	4	128
20 L	1120180200	1	36

Algicide Super Concentrated

Powerful anti-algae action fast and durable, is able to kill the formation and development of algae in the pool with fewer doses. Do not use in polyester pools.

Package: 5 · 20 L

Liquid

EMPLOYMENT

Adjust the pH of the pool water to between 7.2 and 8.0

Initial Treatment: 1 L / 100 m³.

Maintenance Treatment: 0.25L / 100 m³ once a week.

Maintain the chlorine level between 0.5 to 2.0 ppm.

PACKAGE	REF NR	U/BOX	U/PALET
5 L	1120170050	4	128
20 L	1120170200	1	36

FLOCCULANT AND CLARIFIERS

Flocculant / Clarifier Liquid

It groups the colloidal particles together eliminating in the filtrate. This causes the pool water to have a more transparent and crystalline appearance.

Package: 5 · 20 L

Liquid

EMPLOYMENT

Adjust the pH of the pool water to between 7.2 and 8.0

Maintenance Treatment: 1 L/ 100 m³.

PACKAGE	REF NR	U/BOX	U/PALET
5 L	1225210050	4	128
20 L	1125210200	1	36

Flocculant / Clarifier Tablet

It groups the colloidal particles together eliminating in the filtrate. This causes the pool water to have a more transparent and crystalline appearance.

Package: 5 · 25 Kg

Tablets: 40g

EMPLOYMENT

Adjust the pH of the pool water to between 7.2 and 8.0

Maintenance Treatment: 1 tablet 200 g / 20 m³ of water.

PACKAGE	REF NR	U/BOX	U/PALET
5 Kg	1125230050	4	112
25 Kg	1125230250	1	18

Flocculant / Clarifier Cartridges

It groups the colloidal particles together eliminating in the filtrate. This causes the pool water to have a more transparent and crystalline appearance.

Package: 750g

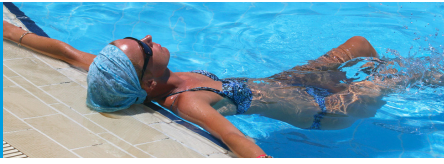

Cartridges

EMPLOYMENT

Adjust the pH of the pool water to between 7.2 and 8.0

Maintenance Treatment: 1 cartridge/ 50 m³ of water.

PACKAGE	REF NR	U/BOX	U/PALET
750 g	1125220007	10	400

PH REGULATOR

pH Increaser Liquid

This product is especially formulated to increase the pH of the pool water. For an optimum performance of chlorine, pH must be between 7.2 –8.0

Package: 5 · 20 L

 Liquid

EMPLOYMENT

To increase pH by 0.2: 1 L/ 100 m³ of water.

PACKAGE	REF NR	U/BOX	U/PALET
5 L	1230260050	4	128
20 L	1130260200	1	36

pH Increaser Granulate

This product is especially formulated to increase the pH of the pool water. For an optimum performance of chlorine pH must be between 7.2 –8.0

Package: 6 · 25 Kg

 Granulate

EMPLOYMENT

To increase pH by 0.1: 25 g / 50m³ of water.

PACKAGE	REF NR	U/BOX	U/PALET
6 Kg	1130240060	4	112
25 Kg	1130240250	1	18

pH Decreaser Liquid

This product is especially formulated to reduce the pH of the pool water. For an optimum performance of chlorine, pH must be between 7.2 –8.0

Package: 5 · 20 L

 Liquid

EMPLOYMENT

To decrease pH by 0.2: 1 L/ 100 m³ of water.

PACKAGE	REF NR	U/BOX	U/PALET
5 L	1230270050	4	128
20 L	1130270200	1	36

pH Decreaser Granulate

This product is especially formulated to reduce the pH of the pool water. For an optimum performance of chlorine, pH must be between 7.2 –8.0

Package: 6 · 25 Kg

 Granulate

EMPLOYMENT

To decrease pH by 0.1: 25 g / 50 m³ of water.

PACKAGE	REF NR	U/BOX	U/PALET
6 Kg	1130250060	4	112
25 Kg	1130250250	1	18

SPECIFITIES

Anti Cal/ Anti Iron Liquid

Neutralizes the particles of lime and iron avoiding the deterioration of the water and the formation of calcareous sediments in the waterline. Compatible with all kinds of swimming pools.

Package: 1 · 5 L

 Liquid

EMPLOYMENT

Maintenance Treatment: 1 L / 50 m³.

PACKAGE	REF NR	U/BOX	U/PALET
1 L	1140210010	12	288
5 L	1140210050	4	128

Anti Cal/ Anti Iron

Neutralizes the particles of lime and iron avoiding the deterioration of the water and the formation of calcareous sediments in the waterline. Compatible with all kinds of swimming pools.

Package: 5 Kg

 Granulate

EMPLOYMENT

Maintenance Treatment: 50 - 70 g / 50 m³.

PACKAGE	REF NR	U/BOX	U/PALET
5 Kg	1140292050	4	84

Wall Cleaner

Removes rust, lime and other symmetries of the walls of the pool. Not to be used in polyester pools.

Package: 5 · 20 L

 Liquid

EMPLOYMENT

Use directly on the surface. Rub with a brush.

PACKAGE	REF NR	U/BOX	U/PALET
5 L	1135300050	4	128
20 L	1135300200	1	36

Antifoam

Eliminates and prevents foam that can form in the water of swimming pools and spas caused by the introduction of body fat, makeup, sunscreens.

Package: 1 L

 Liquid

EMPLOYMENT

Maintenance Treatment: 1 L / 100 m³.

PACKAGE	REF NR	U/BOX	U/PALET
1 L	1140333010	12	288

SPECIFITIES

Chlorine Neutralizer

Removes excess residual chlorine that may still remain in the pool.

Package: 5 - 25 Kg

EMPLOYMENT

To decrease chlorine residual by 0.1: 10g / 1m³ of water.

PACKAGE	REF NR	U/BOX	U/PALET
5 Kg	1135330050	4	84
25 kg	1135330250	1	12

Chlorine Stabilizer

Stabilizes residual chlorine avoiding the rapid destruction of the chlorine caused by the ultraviolet rays of the sun, and prolongs and optimizes the disinfecting action of chlorine.

Package: 1- 5 Kg

EMPLOYMENT

To increase cyanide by 30 pmm: 30g / 1m³ of water.

PACKAGE	REF NR	U/BOX	U/PALET
1 Kg	1140332010	10	400
5 Kg	1135332050	4	84

Chlorine Complete Maintenance

Tablets of 200 gr of slow dissolution, used for the disinfection and maintenance of the water of the swimming pool. Special polyester pools / line.

Package: 5 Kg

EMPLOYMENT

Adjust the pH of the pool water to between 7.2 and 8.0
Maintenance Treatment: 1 tablet 200g / 25 m³ of water.

PACKAGE	REF NR	U/BOX	U/PALET
5 Kg	1105072050	4	84

Preventive Algicide

Fast and lasting action liquid able to prevent formation and development of algae in the pool for longer periods. Special polyester pools / line.

Package: 5 L

EMPLOYMENT

Initial Treatment: 2 L / 100 m³
Maintenance Treatment: 0.5 L / 100 m³ once a week.

PACKAGE	REF NR	U/BOX	U/PALET
5 L	1220160050	4	128
